FYF Interview Prep

Q1) Introduce yourself and what qualities will you
    bring to the role

→ Syed Am
    ↳ small village jhang
                    ↳ highly
                    recommend to visit

→ First year
    Biology and HPM on pre med
        chem
    Foote Fellow / Stamps Scholar
                        ↳ most prestigious
                        UM scholarship
                                        4 A+'s
→ Academics : Junior
            ↳ advance Biology / Stem courses

Team work and   : Class president and president of science society
    communication
                    Peer tutor and SAT/AP/IB tutor certified
            → worked in teams of 3 all the way uph 300
            managing local and national event

Professional : As a pre-med
            ↳ rigur connection
                    → Dr Gaines   → Research
                → OAE
                → AMSA   → stamps network
                        → PHIDE
Q2) Issues with scheduling   → Baptist

1) Invite to sit down

2) Ask if met with academic advisor

3) if they have and still not solving

4) sit down see what their goals are
ie expected graduation / study abroad plans and credits and then advise them for fall/spring
⇒ always ways to work around things

Q3) Spent 10 hour on a problem still don't get it

1 → when they come i tell them for future ref the 2-3 attempt is when you reach out to me

2) → strategies

1) drop everything, take a break → come back to it

2) do easier tasks first, complete all of them
↳ feel accomplished

3) I will sit with them
↳ break it down → explain them the thinking process

4) Nothing works I will go with them to office hours
sit there and figure it out with them
↳ I know how frustrating it can be

4) First week when navigate

→ this is a great idea for a first week engagement
                                          or
                                       second
but I think I would give them a quick run down
of how the Canelink / Blackboard works and

be available for questions/queries

for example:

I'd also recommend them to keep in close touch
with transitional advisor
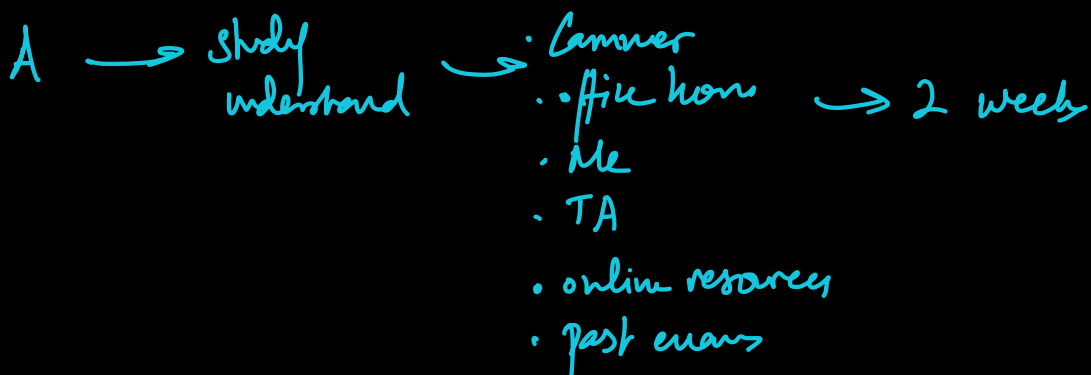

5) Team Collab :- Reiterate → vast experience

Delegation / Meeting deadlines / Reaching (consensus)
making everyone feel heard / navigating conflicts

6) How will you exactly help when an issue arises

• Break down the problem

Goal → Steps → Resources → Time

MAP

I need to get an A in this exam and I have been struggling
in this class. I have   mid-term in 2 weeks

A → study   • Summer
      understand → • office hours → 2 weeks
                     • Me
                     • TA
                     • online resources
                     • past exams

MAP

schedule → testing himself → time for resources etc

I will reach out and keep getting progress reports

7) What events will you plan ??

⇒ T-au Q
   ↳ Biggest Reasons I am applying for this job
   ⇒ teach   ⇒ community building ⇒ togetherness — ⇒ stop feeling
                                      Med School   of overwhelming
                                      journey

1) MCAT run-down ✹
   ↳ kids in freshman year don't get an
     idea about MCAT which puts them behind

2) Medical school Guide book

   ⇒ AMSA / PHSDE / Gaines / Miller

3) Tea Time ✱
   ⇒ wide selection of teas and coffee

   come for a conversation/discuss issues/progress while we make
   tea/coffee from scratch together ⇒ truly relaxing
   ✱

4) Find Research with FVF ⇒ Workshop on how to find/start/excel in
   ✱   researches on/off campus and internships in research

5) Careers with Karoline → HPM / Healthcare / Consulting / Hospital / UN / Gov't
   ✱   IB   Admin   Dept
                                                                                    of Health

   LinkedIn Workshop for Stem Students : Andrés Conchas ✱

✱ Secret Santa with your Cohort : Community Building
   ↳ Randomly Assign number (

member → reach out
